

No Smoking, Vaping, Alcohol and Drugs Policy

No Smoking and Vaping

Bus Stop Forest School Training premises are Non-Smoking and Vaping. This includes the smoking of E-cigarettes and Vapour cigarettes (Vaping).

Students are not permitted to smoke in any areas of the inside or outside areas of the woodland, when at the Forest School site or when walking to the site. No smoking signs are clearly displayed on the front Pre-School gate.

No Alcohol or Illegal Substances

Alcohol or illegal substances are not permitted on the premises of Bus Stop Forest School Training. Students found to be under the influence or in possession of alcohol or illegal substances whilst on training will be asked to leave immediately.

In the event that a student is believed to be under the influence of alcohol or illegal substances, Trainers would approach them calmly and explain that they believe they are under the influence and suggest that their emergency contact is called to collect them.

In the event of the above taking place, Cambium Sustainable will be contacted and the situation explained.

Taking Medicine/other Substances

During the registration process, students are asked to give details of any health requirements they have on the Registration form for example; do they use an inhaler or Epi pen. Trainers will discuss the health requirements with the student and ascertain whether the medication could impair their ability to carry out the practical part of the training.

Students are reminded that it is their responsibility to ensure that they administer their medication at the appropriate times and that it is stored appropriately and safely during training for example, medicines can be stored in the kitchen fridge and or in their bag when on the forest school site.

Depending upon the students health condition, for example if they have epilepsy, a risk assessment will be carried out.

This policy was reviewed in May 2025, to be reviewed in September 2025.
